

# Application Notes

---

## Pet Dwellings Primer

### Where to use:

ECOS Pet Dwellings Primer should be used on all untreated metal and unfinished wooden enclosures before applying ECOS Pet Paints.

### Preparation:

Surfaces must be clean, dry, sound, and free from dirt, dust, grease and surface contaminants. Clean stubborn areas with mild detergent. Rinse and dry thoroughly before applying.

### Coverage:

Spread rate depends upon the substrate porosity and finish type. Maximum spread rate is 130 sq. ft. per Quart.

### Application:

DO NOT THIN.

Stir gently and thoroughly before use.

Apply one coat to unfinished wood or metal and allow to dry for at least 6 hours before over-coating.

Normally touch dry in 1-2 hours.

Avoid applying below 41°F (5°C).

Clean equipment and brushes with water.

### Clean Up:

Clean hands and equipment with warm soapy water.

### Storage:

Protect from frost/freezing.

### Disposal:

Dispose of in accordance with local ordinance.

### Health and safety:

Avoid contact with skin and eyes. Wash off splashes with water.

Keep out of reach of children.

Do not ingest.
