

Storage:

Protect from frost/freezing.

Where to use:

Use as a sealer-stabilizer pre-treatment before painting. For crumbling, flaking, or otherwise loose porous exterior and interior concrete, masonry, brickwork, mortar, render, plaster etc.

Preparation:

Ensure the surface is dry and remove as much loose, flaking or dusty material as possible.

WARNING: Older buildings may contain lead-based paint, which requires professional remediation if it is disturbed. If in doubt, consult with a professional from a Lead-Safe Certified Firm.

Application:

DO NOT THIN.

Shake or stir before use.

Apply one coat by brush, roller or spray.

Allow to dry thoroughly before over-coating.

Do not apply when rain or frost are expected.

Avoid use below 41°F (5°C), above 77°F (25°C), or in direct sunlight.

Clean equipment with water.

Coverage:

Varies with porosity:

70-150 Sq Ft per Quart (single coat)

260-600 Sq Ft per Gallon (single coat)

Health & Safety:

Avoid contact with skin and eyes. Wash off splashes with water. Keep out of reach of children.
